

# Introducing Diamond RealSeal™

## Plastic Laboratory Bottles

Premium bottles engineered to meet the requirements of the most demanding applications.

Diamond RealSeal™ Plastic Laboratory Bottles from Globe Scientific meet the requirements of the most demanding applications. Rugged and durable, these bottles are a safe, shatterproof alternative to glass bottles for collection, storage, or shipping of samples, media, and reagents.

### The Diamond RealSeal™ Difference:

#### Medical Grade Resins to Meet Demanding Requirements

- USP Class VI for pharma and research applications
- FDA CFR-21 compliant for food contact
- Free of heavy metals and RoHS compliant
- BPA and phthalate free

#### Precision Molded for Consistent Wall Thickness and Smooth Surfaces

- Improves bottle and seal integrity
- Reduces contents "hang-up"
- Manufactured in an ISO 13485 and ISO 9001 certified facility

#### Leakproof, Linerless Caps for Secure Closure

- Integrated seal ring molded in cap to prevent leaks
- Linerless cap design to reduce contamination risks associated with liners: wrinkles, tears, wear, corrosion, reaction and leakage

#### Value

- Laboratory bottle quality and performance with savings associated with "economy" bottles
- Lighter than glass for reduced shipping costs

#### Safety/Convenience

- Safe, shatter-resistant alternative to glass bottles
- Lighter than glass for improved handling

Diamond RealSeal™ Bottles are available in a wide range of shapes, sizes, and materials to accommodate most application needs. Small or large, wide mouth or narrow, natural or amber — even large format with handles — the Diamond RealSeal™ line includes the most frequently used bottles as well as some less common styles.
