

20-Place Cardboard Slide Mailers

Globe Scientific's 20-place cardboard slide mailers are a reliable and cost-effective solution for storing and transporting microscope slides with or without a cover glass. Designed with durability and functionality in mind, these slide holders are lightweight, reusable, and ideal for a variety of laboratory and research applications.

The mailers feature an inner finger groove for effortless slide removal along with a cover that opens for viewing. The flat inner surface area is ideal for labeling or writing any necessary information, and a convenient numerical index corresponds to the inner slide compartments. The inside flaps are recessed to prevent contact or contamination between the slides and the cover when closed. The 360° hinge allows the cover to fold flat underneath, saving valuable space during use. The mailers are available in 6 colors.

Features and Benefits:

- Secure slide storage: Keeps slides safely in place, with or without a cover glass
- Inner finger groove: Allows effortless slide removal for quick access
- Flat labeling surface: Perfect for labeling or writing slide details
- Numerical index: Allows for organized slide placement and identification
- Recessed flaps: Prevent contact and contamination
- 360° Hinge: Folds flat during use for optimized workspace efficiency
- Lightweight and reusable: Reduces costs while ensuring durability for repeated use

Applications:

- Microscope slide transport for laboratory or field use
- Organization and storage in teaching labs and classrooms
- Secure handling in clinical and diagnostic environments

Item #	Description	Units
513025	White, holds 20 slides, 10/case	Each & 10
513025B	Blue, holds 20 slides, 10/case New Color	Each & 10
513025G	Green, holds 20 slides, 10/case New Color	Each & 10
513025P	Pink, holds 20 slides, 10/case New Color	Each & 10
513025R	Red, holds 20 slides, 10/case New Color	Each & 10
513025Y	Yellow, holds 20 slides, 10/case New Color	Each & 10
