

Flexible Style Face Shield

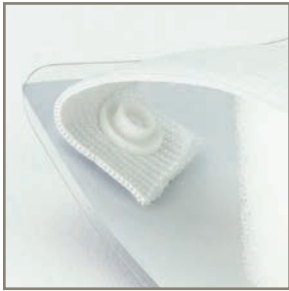

Dimensions: 13" x 8.5"

This single use safety face shield offers eyes, nose, and mouth protection from aerosols, sprays, and splatters. A comfortable elastic band and soft, breathable headband make this light-weight shield comfortable to wear even over extended periods. The transparent, distortion free PET shield provides maximum visibility and protects lab personnel and health care providers from chemical spills, spits, dust, bacteria and germs.

- Flexible style
- Anti-fog 0.2mm PET material
- Zero obstruction in line of sight
- Comfortable 35mm thick foam backing
- Durable elastic head band
- Can be paired with respirators, goggles and other PPE

Breathable, 35mm thick foam backing for enhanced comfort during extended periods of use

Heavy-duty head band attachment ensures long-lasting performance
