

## 13mm Plug Cap for Beckman<sup>®</sup> IDS Auto Track\* with Automatic Recapper

Item# 5538

### Description

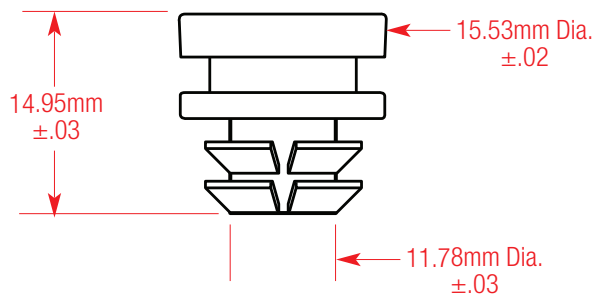

This special 13mm blue cap is designed for use on the 2nd generation IDS Beckman<sup>®</sup> Specimen Automation Track System with the automatic recapping module. This popular analyzer can be found in large hospital systems. The Globe cap is an alternate to the OEM cap and is offered at substantial savings.

The cap is also useful for manual capping of 13mm tubes.

### Features

- Polyethylene (PE)
- Non Sterile
- Blue

**Packaging:** 500 per bag
